Re: GenX and other PFAS

Dear Freedom of Information Act Officer:

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, 40 CFR § 2, Cohen Milstein Sellers & Toll PLLC submits our second request to inspect or obtain copies of public records and information as described below. Cohen Milstein represents residents in New Hanover, Bladen, Brunswick, Cumberland, and Pender Counties in North Carolina who utilize water from the Cape Fear River for drinking and other household activities. We agree to pay fees for searching or copying these records; please inform me, however, if the cost will exceed \$1,000.

Please note that under 5 U.S.C. § 552(a)(6)(A)(i), (a)(6)(B)(i), the EPA is required to respond within 20 working days of receiving this request. If you expect a delay in responding to and fulfilling this request, please contact me with information about when I might expect copies of, or the ability to inspect, the requested records. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information requested, and notify me of the appeal procedures available to me under the law.

We request the following documents:

- any and all documents, communications, data and/or test results, submitted to the EPA by the Chemours Company FC, LLC from June 1, 2018 to present, concerning GenX and/or other perfluoroalkyl substances (“PFAS”);
- any and all documents, communications, data and/or test results, submitted to the EPA by E.I. du Pont de Nemours & Company from June 1, 2018 to present, concerning GenX and/or other PFAS; and

- any and all documents, communications, data and/or test results, submitted to the EPA by the Chemours Company FC, LLC from June 1, 2018 to present, concerning the Fayetteville Works facility, located at 22828 NC Highway 87 W, Fayetteville, North Carolina, 28306.

If you have questions, please contact me at the phone number or email address above.

Sincerely,

A handwritten signature in black ink, appearing to read "Jamie Bowers", written in a cursive style.
